LSVT LOUD®

LSVT Loud is a highly effective speech treatment for individuals with Parkinson's Disease (PD) and other neurological conditions.

Most people living with PD will experience changes to their speech and communication at some point during the course of the disease.

These difficulties can progress and impact quality of life for individuals.

Research data shows that the **LSVT Loud** program can improve speech loudness, intelligibility and facial expression in individuals who complete this program.

Program structure

- 16 one hour individual sessions
- Four days a week

LSVT Loud program can only be delivered by accredited Speech Pathologists.

How to access the program

Ask your GP or Specialist to refer you to Eden Private Hospital's Be Heard LSVT Loud Program.

The program is available through your private health fund, DVA, Home Care Package, NDIS or can be self funded.

Please call 07 5472 6472 and ask to speak to our Day Programs Manager to discuss your needs.
